GRASHOF'S LAW
S + L vs P + Q
GRASHOF
S + L < P + Q
NON−GRASHOF
S + L > P + Q
Crank−Rocke
Shortest = inpu
Input: full rotatio
Output: oscillate
Double−Cran
Shortest = groun
Input: full rotatio
Output: full rotati
Rocker−Crank
Shortest = output
Input: oscillates
Output: full rotation
Triple−Rocker
No link can fully rotate
All links oscillate
(Limited motion range)
SPECIAL CASE: S + L = P + Q
Change−point mechanism (passes through dead points)
